Bhubaneswar, Odisha, India

PROFESSIONAL SUMMARY:

Highly motivated and enthusiastic fresher with a strong foundation in programming seeking an entry level position where I can contribute my technical skills and passion for web development.

AREAS OF EXPERTISE:

- | | |
|--------------------------------------|-----------------------|
| ✓ Microsoft Office | ✓ MongoDB Database |
| ✓ HTML, CSS, Bootstrap | ✓ Node JS, Express JS |
| ✓ JavaScript, Tailwind CSS, React JS | ✓ Git, GitHub |

PROFESSIONAL EXPERIENCE:

Tetra Trion Technologies Pvt Ltd, Bhubaneswar

01 Mar, 2024 - Present

Intern

- Developed and implemented user-friendly web-based application for a variety of clients.
- Developed and designed a **full-stack web application** using the MERN stack (HTML, CSS, JavaScript, Bootstrap, React JS, Tailwind CSS, MongoDB, Express.js, React.js, Node.js).
- Implemented **user authentication** (sign-up, login) with **JWT tokens** for secure access to the application. Utilized **MongoDB** for database management, performing CRUD (Create, Read, Update, Delete) operations on user data.

L V Prasad Eye Institute, Bhubaneswar

01 Jan, 2022 – 05 Apr, 2023

TECHNICIAN / PROJECT CO-ORDINATOR

- Worked as a part of LVPEI Bhubaneswar under the project of Cognizant Retinopathy of Prematurity. Coordinate with remote team. Maintaining all type of patient data. Preparing all kind of Project report send to the authority through email.

RECENT AND RELEVANT PROJECTS:

- Created a **simple web portal** using **React** for the front-end functionality and **Tailwind CSS** for styling. The portal is fully responsive, ensuring smooth user experience across different devices. By leveraging Reacts component-based architecture, I built modular, reusable UI elements, while Tailwind CSS enabled rapid and efficient design through utility-first CSS classes. The combination of React and Tailwind CSS allowed for a streamlined development process, resulting in a clean, modern, and responsive user interface.
- During my internship, I collaborated with my teammate to develop an **Inventory Management System** using **React** with **Vite** as the development environment. We utilized React' component-based architecture for building a modular and scalable front-end, while Vite provided fast and efficient bundling, improving development speed. The system featured a user-friendly interface and efficient state management, making it easy to navigate and maintain accurate inventory records.

EDUCATION:

2022 - 2024 | Biju Patnaik University of Technology (BPUT), Odisha

Masters in Computer Applications (MCA).
